

Lilly's School Journey

I joined Farringtons in Year 4. I remember my first teacher Mr Shimmin who I still see around the school all the time, he really looked after me. My favourite subjects in the Prep School were Maths and English.

Moving up to Year 7 was quite easy as you knew everyone, I settled in quickly as lots of my friends moved up to the Senior School.

I have enjoyed participating in the school productions every year, my favourite was Grease when I played Vince Fontain.

My favourite Floreat lesson was archery. I have also completed a Student Leadership qualification which was great because I can add this to my UCAS application and CV.

I am currently studying Maths, Further Maths and Physics and I am hoping to go to Loughborough University in September to study Civil Engineering.

I have enjoyed being Head Girl, particularly helping with the Open Mornings.

I think that Farringtons is a tight knit community, where everyone knows each other and everyone is friends.

My favourite memory from school is completing my gold Duke of Edinburgh award last year.
