

I joined Farringtons in Year 2, I remember meeting lots of new people and those people are now my best friends in Year 13.

My favourite subjects in the Prep School were Science, which Mrs Crouser taught. I enjoyed learning about space in Physics and enjoyed learning English with Miss Cox.

I have participated in lots of co-curricular activities including cricket in the Prep School, ultimate frisbee, eco club, library club and now I am Deputy Head Boy.

For my Floreat lessons I have enjoyed archery the most as it was so much fun. I also did a Student Leadership qualification which I have added to my personal statement along with my Extended Project Qualification.

I am currently taking Photography, Geography and Economics as my A Levels and am hoping to go to university to study pilot studies.

My favourite memory of my time at Farringtons is meeting all my friends, they are going to be friends for life.

My favourite trip was in Year 11 to Iceland for Geography.
